### HIGH-SPEED WIRELESS INTERNET ACCESS

**CONNECT TO THE WIRELESS:** For wireless use in guest rooms, hotel lobby, business center, and any public areas: Using your device's wireless connection, search for wireless networks and connect to your venue's network name or SSID. Proceed to sign-in.

**SIGNING IN:** Third-party software security enhancements may prevent your device from reaching the login page. Open your web browser and visit a non-HTTPS page such as [wifi123.org](http://wifi123.org). You will be directed automatically to the sign-in page. Once you read and agree to the Terms of Service, enter the access code provided by the front desk and the click "I Agree." You will then be redirected to the Home Page and allowed to use the internet.

**TROUBLE CONNECTING:** Guest WiFi networks require you to login. If you are having issues connecting to the WiFi, it is always best to reboot your device and try reconnecting. This clears any previous connections and should allow you to reach the login page.

**GAME CONSOLE AND STREAMING MEDIA BOXES:** If you are traveling with an Xbox, PlayStation, Roku, Apple TV or other media device and are having problems connecting, please locate the MAC address and call our support team to have your device authenticated.

## TIPS ON WHAT TO DO IN CASE OF A FIRE

1. If you discover a fire or smell smoke, sound the building alarm. The location of all fire alarm pull stations is illustrated in the diagram located on the back of your hotel room door.
2. Do not use the elevators. Elevators are like chimneys. Smoke could enter the elevator shaft, thereby asphyxiating anyone trying to evacuate the building, or become inoperative, trapping occupants.
3. Use the stairs. Calmly proceed to the nearest stairway.
4. If fire alarms sound, feel the door of your room before opening. If hot or smoke is seeping in, do not open. Use wet towels or sheets to seal off any cracks.
5. Fill the tub with water. It might be needed for firefighting.
6. Use the telephone in your room to call the hotel operator and let the operator know your room number
7. If door is cool, open cautiously. Be ready to close it rapidly if hall is full of smoke or you feel pressure against the door. If hall is clear, leave your room and close your door behind you. Proceed to the nearest exit.
8. When in smoke or heat, stay low where the air is better. Take short breaths (through nose) until you reach an area of safety.
